The following is an examiner's statement of reasons for allowance: the prior art does not teach all of the limitations of the claimed invention including:

- forming a mask on the gap layer for making an end portion of the gap layer for defining a throat height;
- forming the end portion of the gap layer by selectively etching the gap layer and a portion of the first pole layer through the use of the mask;
- forming a nonmagnetic layer so as to fill etched portions of the gap layer and the first pole layer while the mask is left unremoved;
- removing the mask after the nonmagnetic layer is formed; and
- forming the second pole layer on the gap layer after the mask is removed.

Accordingly, claims 1-11 are allowed.
